

WHY 95% PHOENIX COMBI?

HOMEOWNERS

BENEFITS

Maximum Energy Saving for Both Water Heating & Space Heating

- One 95% Heat Source: two ways to save
- More energy is saved creating fast payback

Hydronic Heating is More Comfortable

Radiant heating and/or air handlers far exceed direct fired furnaces in thermal comfort

Low Carbon Emissions

Phoenix displaces a TON of carbon emissions each year when compared to standard efficiency heating and hot water appliances for a 3,000 sq ft home!!!

Cost Effective High Efficiency

- High gas prices mean fast investment return

Very Reliable

- Proven European Technology used in millions of homes

Zoning Flexibility

- Hydronic heating offers more cost effective, efficient zoning

Phoenix is Compact: It will save valuable space in your home

Phoenix is Quiet

- Whisper quiet fans
